TroLase ADA Signage

Material Features

Material: Modified acrylic, 1-Ply
Finish: Matte
Thickness: 1/32", 1/16", 1/8"
Cutting method: Laser, saw, guillotine
Sheet size: Full 1/4 48.5" x 24.125" All sizes nominal
Half 1/2 24.125" x 24.125" Actual size +/- 1/8"
Quarter 1/4 24.125" x 12"

- Solid, dyed, acrylic based material for indoor and outdoor use.
- Popular material for the production of braille and tactile signage.
- Ideal for cutting out letters and for creating 3-dimensional signs.
- Thinner options are a popular medium for architectural model making.

SH1/4	\$17.46	\$19.43	\$32.34	Add \$4.44

Tips

Ordering TroLase ADA Signage with self-adhesive film applied to the back will allow you to easily mount letters cut-out from the material plate onto base plates or walls. During assembly, use the cut material plate as a template for spacing and as a line level.

- A few tips for best results:
- A cutting grate should always be used when cutting plastics, in order to lift the material.
 - Remove the protective film in order to prevent discolouration or excessive smoke.
 - If excess smoke results, then too much energy is being used. In this case increase the speed.

Tips

We recommend that you allow time for the wood to acclimatize to its new environment before processing. Ideally, maintain in an area with constant temperature/humidity.

Wood is a natural product, so colour variations, differences in grain and knots are unavoidable.

The ideal material for each application

The Trotec Materials business unit was launched in February 2017. Today our broad line of materials includes more than 1800 products designed for laser and rotary processing — including laminates, acrylic sheets, wood panels, and laserable paper. Materials are available in a wide selection of colours and surface finishes, and are used for many applications such as indoor and outdoor signage, illuminated displays, ADA signage, print-and-cut applications, name plates, data tags, plaques and more.

Combined with our extensive line of CO₂ and fiber laser systems, our materials product line has enabled us to provide you with a complete range of support for your business – including laser equipment, materials and expertise – in a convenient and unique single-source solution. Our materials provide high-quality results in fewer passes and leave less residue. Other major benefits include:

- Lowest cost on premium products
- In-house technical support for lasers and materials
- Fast delivery
- Easy online purchasing
